

TOP 1 OIL Fastest Wednesday at World Class Motoring Press Conference, Streamliner Exhibit and Open House

The world's fastest car and motorcycle streamliners are getting ready to rumble for the ultimate bragging rights – the FIA/FIM recognized world land speed record at Bonneville Salt Flats, September 20-22, 2008. Only 10 of the most qualified teams are invited to this inaugural TOP 1 Oil World Land Speed Shootout, and only one team per category will walk away with the title of 'fastest' car or motorcycle in the world.

With the Holy Grail speed target of 400 mph still unclaimed, there's much at stake. To get an advance taste of who'll be competing, we invite you and your guests to join us for an exclusive Shootout press conference and preview. You'll learn why this competition was created, meet competing teams as well as check out their streamliners.

The action will take place at Southern California's premier automotive and motorcycle enthusiast destination, Agoura Hills-based World Class.

When:

Wednesday, September 10, 2008

5:30 pm to 9 pm (press conference at 6 p.m.)

Interview/photo opps, benchracing, racing sim competition, media hospitality
